

ALI RAZA KHAN

Associate Software Engineer

[Portfolio](#)

[LinkedIn](#)

[Email](#)

Software Engineer skilled in C++, Python, and system design with experience in building scalable applications, backend systems, and software architectures. Proficient with development tools such as Visual Studio Code, Git, and modern development frameworks. Experienced in designing efficient algorithms, implementing APIs, and developing robust, maintainable software solutions across different platforms.

AREA OF EXPERTISE

C++	NumPy	Scikit-learn	Unreal Engine
Python	Pandas	Jupyter Notebook	Game Physics Implementation

PROFESSIONAL EXPERIENCE

Associate Software Engineer (Unreal Engine) - Devsinc

Jun 2025 - Present

- Developed gameplay systems in Unreal Engine using C++ and Blueprints, including combat mechanics, and interactive gameplay features.
- Implemented AI behavior using Behavior Trees for AI Enemies and NPC's.
- Developed Weapon Systems for Shooting Mechanics and RPG Mechanincs including third-person and first-person.

Game Development Intern (Unity) - M-Labs

Jun 2024 - Sep 2024

- Developed Mercy or Justice, a choice-based visual novel in Unity.
- Created custom UI animations for dialogue boxes, menu, and sound settings.
- Designed data holders for managing game elements like speakers, scenes, and choices.

Final Year Project

Deepfake Detection System (Macine Learning/Deep Learning)

- Developed a Deepfake Detection System using machine learning and deep learning techniques to identify manipulated video content.
- Utilized Python with NumPy, Pandas, Scikit-learn, and Jupyter Notebook for data preprocessing, model training, and evaluation.
- Built a web-based interface to analyze videos and classify them as real or fake based on the trained model.

EDUCATION

Bachelor in Computer Science

2021 - 2025

Lahore Garrison University (LGU)

Intermediate in Computer Science

2018 - 2020

Forman Christian College (FCCU)

CERTIFICATIONS

- Rookie Game Jam Summer Program 2024 - **M-Labs**
- Develop, Customize, and Publish in Omniverse With Extensions - **NVIDIA**
- Web Development - **Lahore University of Management and Sciences (LUMS)**
